Philips PerfectCare Pure

Steam generator iron

- Max 5 bar pump pressure
- 240 g steam boost
- Carry lock
- 1.5 l fixed water tank

GC7635/30

Faster and easier ironing

with no temperature adjustment required

Iron your garments without adjusting the temperature thanks to the revolutionary OptimalTEMP technology. Compact and lightweight design for easier storage. 99% calc-free, Pure Steam anti-scale cartridges increase product life by 5 times

Benefits

Carefree ironing, no temperature setting required

- Iron everything from jeans to silk with no temperature setting required
- Safe to leave the hot soleplate on the ironing board
- Tested and approved by independent textile experts

Fast and powerful ironing

- Saving energy with ECO mode
- Max 5 bar pump pressure
- Tap water-friendly, refill any time during ironing
- Lock your iron securely to the base station
- Automatically turned off for safety and energy saving
- 1.5 L water tank, up to 2 hours of ironing
- 99% calc-free with Pure Steam Anti-scale cartridge
- The most compact and lightest steam generator

PHILIPS

Features

OptimalTEMP technology

"Now you can iron from jeans to silk with no temperature setting required. Guaranteed not to burn any ironable fabrics. Revolutionary technology with the 1) Advanced Smart Control Processor which controls precisely the soleplate temperature. You do not need to adjust the temperature 2) Compact ProVelocity steam engine delivers more steam for faster ironing. It features a compact design for easier storage"

Energy saving

By using the ECO mode with a reduced amount of steam, you can save energy without compromising on the ironing results. For faster ironing, switch to Turbo mode, which generates more steam.

Max 5 bar pump pressure

The more steam, the faster the ironing. Consistent powerful steam is generated which penetrates deep inside the garments making ironing both faster and better. Steam power can be regulated to suit your needs.

Refill with tap water any time

Your steam generator iron is designed to use tap water. While ironing, when the water tank runs out of water, you can easily refill it without having to wait or turn off your appliance.

Safety carry lock

Your steam generator iron comes with a safety carry lock. You can lock your iron safely on the base, making it safer and reducing the risk of people touching the hot soleplate. You can also carry the steam generator easily.

Safe rest

The innovative Philips OptimalTEMP technology guarantees no burns on all ironable fabrics. During ironing, there is no need to put your iron back on the base station; just leave the hot iron soleplate directly on the garments or cotton ironing board cover without an additional resting accessory. It will not damage any of your ironable garments, or the board. This makes your ironing easier, with less wrist effort.

Safety auto off

The safety auto-off function automatically switches off the appliance if it has not been used for 5 minutes, to save energy.

Tested and approved:

This iron is tested and approved by independent textile expert institutes, such as DWI, IWTO and Woolmark, for its excellent ironing performance. The Woolmark Apparel Care programme helps consumers to identify quality laundry products that are approved by The Woolmark Company for use on wool products. Philips, with its exclusive OptimalTEMP technology, is so far the only brand to be certified with the Gold standard from Woolmark. You can be confident that Woolmark-approved apparel care products are ideal for any wool garments.

1.5 L water tank

Thanks to the 1.5 L water tank capacity, you can iron up to 2 hours continuously without any refills. The large filling hole makes refilling fast. You can either fill your steam generator iron under the tap or use a jug or large bottle.

99% calc-free

The PureSteam anti-scale cartridge filters 99% of scale from tap water. It ensures a consistent flow of steam and prevents calc residues on clothes.

Compact and light

The compact design makes your appliance easy to store. Space will never be an issue again! As it is very light, your appliance is easy to carry. Its lightweight iron will make your ironing much more comfortable.
